

Setting up the website repository on Github Desktop

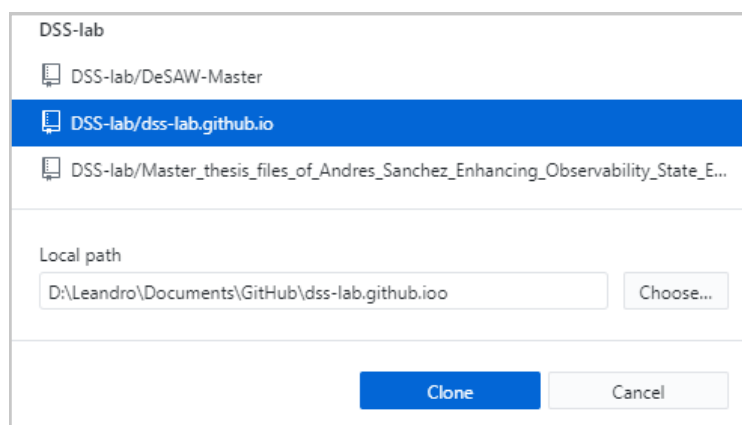

1. Download the installer here: <https://desktop.github.com/>
2. Follow the installation and log in with your Github credentials.
3. After getting access to the DSS repository from Dr. Konstantinou, click on **Current Repository**.

4. Click on **add**, then click on **Clone repository...**

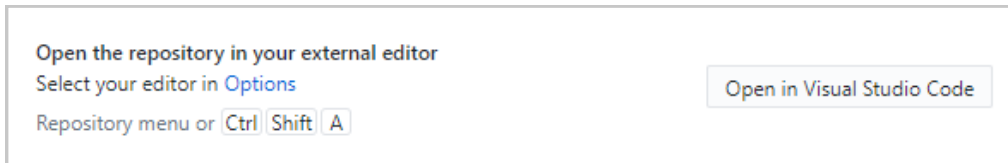

5. Select the website repository, select where you want to clone it, and then click **Clone**.

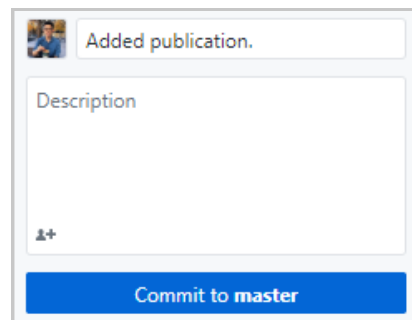

Updating website and pushing updates to Github.

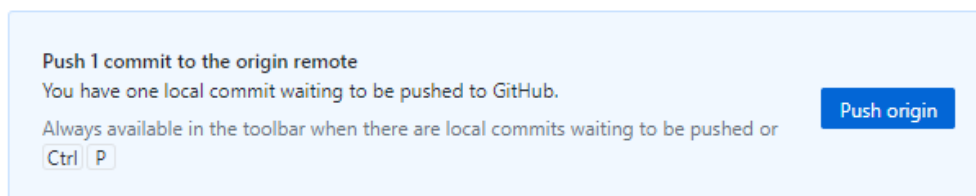

1. Open Github Desktop and set **Current Repository** to the website's repository.
2. Click on **Open in Visual Studio Code** (varies with your default text editor).

3. Github will automatically detect any changes you make to any of the files inside the repository.
4. When finished, Github will require you make a comment if you edited more than one file. Type your comment and click on **Commit to master**.

5. Finally, click on **Push origin**.

Adding a team member

1. Copy a **Team Member Block** and paste it under the previous team member. The **Team Member Block** looks like this:

```
<!-- UNDERGRAD 2 -->
<div class="team-col col-3 text-center" data-aos="fade-up" data-aos-delay="100">
  <div class="member">
    <a href="https://lleberon.me" target="_blank"></a>
    <a href="https://lleberon.me" target="_blank"><h4>Leandro Leberon</h4></a>
  </div>
</div>
```

2. The fields that you can modify without messing the uniformity of the page are the following:

`data-aos-delay="100"`

This value defines the delay for the team member's "fade up" effect when scrolling.

`href="https://lleberon.me"`

The link to the team member's personal website goes here. (Two instances).

`<h4>Leandro Leberon</h4>`

The team member's name goes here.

Adding news to the main site.

1. Copy a **News Block** and paste it over the latest new. The **News Block** looks like this:

```
<div class="row news-row" data-aos="zoom-in">
  <div class="col-12 news-col">
    <div class="news-hibox">
      <h1>January 7, 2020</h1>
    </div>
    <div class="news-pbox">
      <p>Lei and Juan joined our team. Welcome both! For more information, please take a look at our research <a href="#people">group</a>.</p>
    </div>
  </div>
</div>
```

2. The fields that you can modify without messing the uniformity of the page are the following:

```
<h1>January 7, 2020</h1>
```

The new's date goes here.

```
<p>Lei and Juan joined our team. Welcome both! For more information, please take a look at our research
```

The new's description goes here.

```
<a href="#people">group</a>
```

If there is a link to an publication or website, it goes here. (**Note:** the link can be placed anywhere in between the new's description).

Note: When adding a **News Block**, remember to delete the oldest **News Block**, otherwise they will continue to stack up.

Note: This also applies for adding **News Blocks** to the **All News** Page.

Adding news with pictures to the main site.

1. Copy a **News Photo Block** and paste it over the latest new. The **News Photo Block** looks like this:

```
<div class="row news-row" data-aos="zoom-in">
  <div class="col-12 news-col">
    <div class="news-h1box">
      <h1>Feb 15, 2020</h1>
    </div>
    <div class="news-pbox" style="max-width: 50%;">
      <p>DSS Lab members group photo.</p>
    </div>
    <div class="news-imgbox">
      
    </div>
  </div>
</div>
```

2. The fields that you can modify without messing the uniformity of the page are the following:

```
<h1>Feb 15, 2020</h1>
```

The new's date goes here.

```
<p>DSS Lab members group photo.</p>
```

The new's description goes here.

```

```

The link to image's location goes here.

Note: When adding a **News Photo Block**, remember to delete the oldest **News Block**, otherwise they will continue to stack up.

Note: This also applies for adding **News Photo Blocks** to the **All News page**.

Adding a publication to the main site

1. Copy a **Publication Block** and paste it over the latest publication. The **Publication Block** looks like this:

```
<div class="row recent-pub-row" data-aos="fade-up">
  <div class="recent-pub-col col-12">
    <div class="number">2</div>
    <div class="recent-pub">
      <h3><a href="/pub/journals/dt19.pdf">A Data-Based Detection Method Against False Data Injection Attacks </a><span>[2019]</span></h3>
      <p>C. Konstantinou and M. Maniatakos</p>
    </div>
  </div>
</div>
```

2. The fields that you can modify without messing the uniformity of the page are the following:

```
<div class="number">2</div>
```

The publication's number goes here.

```
<h3><a href="/pub/journals/dt19.pdf">
```

The link to the publication's PDF location goes here.

```
>A Data-Based Detection Method Against False Data Injection Attacks </a>
```

The publication's title goes here.

```
<span>[2019]</span></h3>
```

The publication's date goes here.

```
<p>C. Konstantinou and M. Maniatakos</p>
```

The publication's authors go here.

Note: When adding a **Publication Block**, remember to delete the oldest **Publication Block**, otherwise they will continue to stack up.

Adding a class to the main site

1. Copy a **Class Block** and paste it over the latest class. The **Class Block** looks like this:

```
<div class="teaching-col col-3 text-center" data-aos="fade-up" data-aos-delay="300">
  <h3>Fall 2019</h3>
  <h2>EEL 3112 Advanced Circuits With Computers (Circuits II)</h2>
  <p>(FAMU-FSU)</p>
  <div class="syllabus-btn">
    <a href="._pub/syllabi/EL3112syllabusFall19.pdf" target="_blank">Syllabus</a>
  </div>
</div>
```

2. The fields that you can modify without messing the uniformity of the page are the following:

```
<h3>Fall 2019</h3>
```

The year goes here.

```
<h2>EEL 3112 Advanced Circuits With Computers (Circuits II)</h2>
```

The class title goes here.

```
<p>(FAMU-FSU)</p>
```

The university name goes here.

```
<a href="._pub/syllabi/EL3112syllabusFall19.pdf">
```

The link to the syllabus PDF location goes here.

Note: This also applies for adding a new class to the **All Classes** page.

Adding a position to the main site

1. Copy a **Position Block** and paste it over the latest position. The **Position Block** looks like this:

```
<div class="positions-col col-4">
  <div data-aos="fade-up" data-aos-delay="150">
    <div class="positions-box text-center">
      <div class="positions-box-header">
        <h2>Postdoc Position in Internet of Medical Things (IoMT)</h2>
      </div>
      <p>Please consider applying for the Provost Postdoctoral Fellowship Program (PPFP) of FSU, and select our joint IoMT project with
      <a href="positions.html#postdocs" class="positions-btn">More Info</a>
    </div>
  </div>
</div>
```

2. The fields that you can modify without messing the uniformity of the page are the following:

```
<h2>Postdoc Position in Internet of Medical Things (IoMT)</h2>
```

The position's title goes here.

```
<p>Please consider applying for the Provost Postdoctoral Fellowship Program (PPFP) of FSU,
```

The position's description goes here.

Adding a resource to the main site

1. Copy a **Resource Block** and paste it under the last resource. The **Resource Block** looks like this:

```
<div class="resources-col col-3" data-aos="fade-up" data-aos-delay="150">
  <div class="resources-box text-center">
    <a href="https://www.caps.fsu.edu/about-caps/" target="_blank"></a>
    <a href="https://www.caps.fsu.edu/about-caps/" target="_blank"><h3>Center for Advanced</br>Power Systems</h3></a>
  </div>
</div>
```

2. The fields that you can modify without messing the uniformity of the page are the following:

```
<a href="https://www.caps.fsu.edu/about-caps/" target="_blank">
```

The link to the resource's link goes here (For both clicking the logo and the title.

```
</a>
```

The link to the resource icon goes here. (Make sure the icon has a square ratio. Ex: 400x400)

```
<h3>Center for Advanced</br>Power Systems</h3></a>
```

The resource's title goes here. (Note: </br> means a new line)

Adding a publication to the All Publications page

1. Copy a **Publication Block** and paste it over the latest publication. The **Publication Block** in the **All Publications** page looks like this:

```
<div class="publication-col col-xl-4 col-lg-6 col-md-12 col-sm-12">
  <div class="publication-box">
    <a href="./pub/chapters/IET_SecurityGrid17.pdf" target="_blank"></a>
    <a class="publication-title" href="./pub/chapters/IET_SecurityGrid17.pdf" target="_blank">Security Analysis of Smart Grid (Ch-15)</a>
    <p class="publication-desc">ISBN: 978-1-78561-142-1, pp. 451-487, IET, 2017.</br></br><span>C. Konstantinou and M. Maniatakos</span></p>
  </div>
</div>
```

2. The fields that you can modify without messing the uniformity of the page are the following:

```
<a href="./pub/chapters/IET_SecurityGrid17.pdf">
```

The link to the publication's PDF or website goes here (Each type of publication has it's own folder inside the "**pub**" folder).

```

```

The link to the publication's thumbnail goes here (The thumbnails are located in the "**img**" folder and are named after the the type of publication. Ex: Patent = p, Book = b, Journal = j etc.)(For the page to be uniform, the thumbnails should have a width no greater than **120px** and a height of exactly **160px**).

```
>Security Analysis of Smart Grid (Ch-15)</a>
```

The publication's title goes here.

```
>ISBN: 978-1-78561-142-1, pp. 451-487, IET, 2017.
```

The publication's description goes here (Long descriptions may cause the text not to appear, so the shorter the better.)

```
</br></br><span>C. Konstantinou and M. Maniatakos</span></p>
```

The publication's authors go here. (</br> means a new line and means a different font color.

Note: The same **Publication Block** can be used for all the types of publications.
